

Protection Plans

Trimble Protected Plus

Designed to support a set of related workflows, Trimble® Business Center field-to-finish survey CAD software for surveyors is designed to deliver high-accuracy GNSS data, create CAD deliverables, and leverage full data traceability throughout a project's lifecycle. Trimble Business Center software provides that critical performance you need to manage, process and create customer deliverables for all of your office survey tasks in one software package. Because we understand that you want to continue to use your Trimble Business Center software beyond the factory warranty period, Trimble offers additional coverage with Trimble Protected Plus software protection plans.

Why Cover Your Software With a Protection Plan?

Adding a Trimble Protected Plus protection plan for your Trimble Business Center software safeguards your software and your investment beyond the factory warranty, ensuring you can keep your projects generating revenue.

What is Covered?

After expiration of the original software factory warranty, our protection plans' cover:

- compatibility to added hardware
- access to ongoing software updates and enhancements
- fixes to known issues

This means more predictable performance, productivity, and an increase in your software lifecycle.

Renew Your Trimble Coverage

Sign up today for your Trimble Protected Plus protection plan and look forward to lapse-free coverage after your factory warranty has expired. If your software is not covered by a protection plan or factory warranty now, we also offer a great reinstatement option to keep your software current under a protection plan.

The Trimble Protected Promise

Trimble wants to keep you a satisfied protection plan customer for life so we guarantee to stand behind you and your software plan for as long as you own your coverage. .
